

**1983** - WV Board of Investments approved \$10 million mortgage pilot program.

**1983 - May 13** - Gov. Rockefeller announces special session to include mortgage finance pool extension - proposal fails.

**1984** - Board of Investments approves additional \$12 million for mortgage loans.

**1984** - HBA of West Virginia celebrates 25th Anniversary

In a letter to the association on their 25<sup>th</sup> anniversary, President David Yoder writes in his summary of association accomplishments:

"I was equally pleased to have offered your testimony in Congress during the darkest days of the housing depression to help our industry salvage some degree of expectation for the future."

"Our membership consists of those who are independent and highly competitive with each other, yet our members quickly rally to a cause for the common good of the industry. Our Board has considered issues which would totally divide a less dedicated group of leaders, but have reconciled those issues for the good of our industry. Our Association has become respected as an effective partner in common causes; being inducted into coalitions and developing coalitions with housing as the common denominator of the diverse interests."

"We truly have become the Voice of Housing in our State, thanks in large measure to the untiring efforts and the dedication of our Executive Vice President J. Jackson Pauley."

David Yoder  
Morgantown

**President 1983-84 - David Yoder, Morgantown**
